Preschool classes are designed for children ages 3-5 years old. This class allows children to have fun while learning the basic Ballet & Tap skills. This class will prepare them for formal Ballet training that they will receive at the next level.

Classical Ballet students will be placed in graded Ballet levels. It is very important to receive proper Ballet training. Classical Ballet is the foundation for all dance forms. As a dancer progresses, it is highly recommended that they take more classes. The graded level suggests how many classes a student should take each week for that level. It is only a suggestion.

Tap, Jazz, Hip-Hop, Musical Theatre, Dance Team Prep these classes are also graded levels. Previous training and the opinion of the Artistic Director, Kelly Mann Holt will determine the appropriate classes for each student.
